Zachary A. Cooper

Computer Science Student

Work Experience

Product Engineering Intern
Equinix
May 2020 - Dec 2020

I worked closely with engineers to design, develop, and maintain microservices and micro frontend components. During my internship, I groomed, designed, and implemented an end-to-end data pipeline and user experience.

Web Developer
Arizona State University
February 2020 - May 2020

I helped manage the large portfolio of websites under the Fulton Schools of Engineering domain. I conducted website renovations, tested and pushed updates to websites, and created content.

Office Technician
Sunny Hills Restoration
May 2018 - July 2018

I conducted website renovations, provided office technical support, set up company computers, created company advertisements, calculated job cost, chauffeured equipment to job sites, and developed a company protocol for tool tracking and checkout.

Education

Arizona State University
Bachelor's of Computer Science
Tempe, AZ
August 2017 - Present

Villa Park High School
Diploma
Villa Park, CA
August 2013 - June 2017
